Highly absorbent and
cost effective. *Simply*

Zetuvit®
Plus

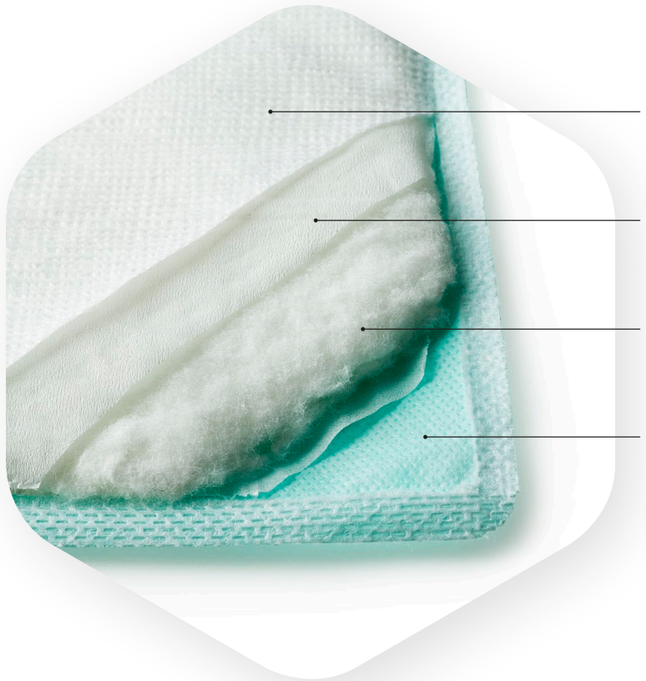
Wound
Management

HARTMANN

Experience Zetuvit® Plus

Your solution to manage highly exuding wounds, layer by layer.

> **Zetuvit® Plus** delivers the highest absorption capacity for exuding wounds.[3]



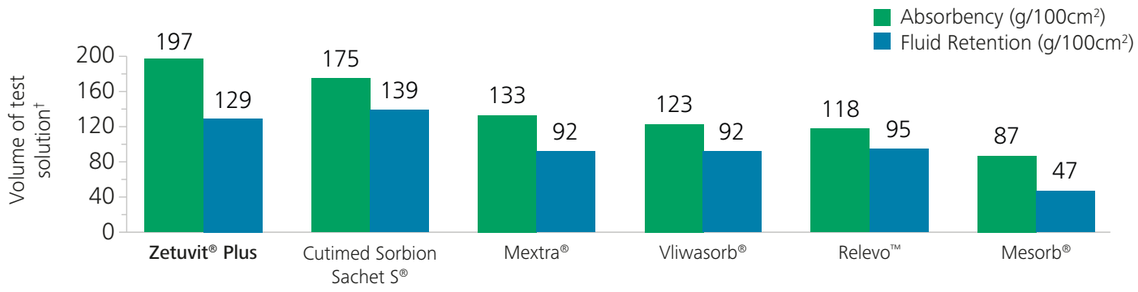
1. **Soft wound contact layer** – Ensures fast transfer of exudate into the dressing and prevents from adhering to the wound.[1]
2. **Diffusion layer** – Offers an even distribution of the exudate into the superabsorbent core for optimised fluid handling.[1]
3. **Superabsorbent core** – Absorbs and traps fluid safely, even under pressure.[1] Offering a soft padding effect for additional comfort.[1]
4. **Green, water repellent outer layer** – Protects clothing & bedding and is permeable to air.[2,5]

Reliable and economical for your patients.

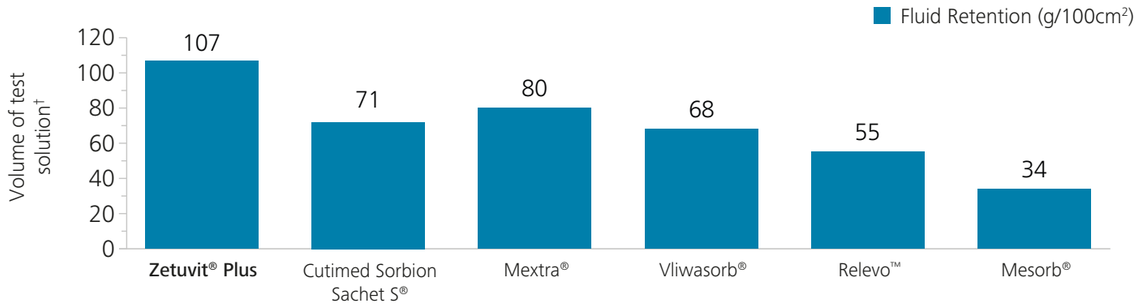
- **Improved quality of life** – Zetuvit® Plus does not stick to the wound[1] and the high absorption capacity increases wearing time.[1] Furthermore, it reduces or even eliminates odour.[1,5]
- **Protects the wound for better comfort** – Pleasant and comfortable wearing due to soft materials, rounded corners and high flexibility as reported by over 90% of patients.[1,5]
- **Cost-effective and time saving** – Thanks to the absorbency and retention capacity, fewer dressing changes are required, leading to proven cost-effectiveness and more quality time with your patients.[2,5]
- **Promotes wound healing & safety** – The high absorption and retention capacity allow for superior fluid handling[1-3], reduces risk of infection[4,5] and skin maceration[5]; while the water repellent outer layer protects bedding and clothing.[2]
- **User-friendly** – Clear labelling of sides and great flexibility for better conformability make the product easy to apply,[2] with 98% of users rating "handling" as good to very good.[2]

The Super Absorbent Power of **Zetuvit® Plus**

Excellent Absorbency and Fluid Retention[3]



Superior Absorption Under Compression[3]



Zetuvit® Plus

Highly absorbent and cost effective. *Simply*

Size	Absorption Capacity	Quantity Per Pack	Selling Unit (Carton)	Product Code
10 x 10 cm	107 ml	10 pcs / Pack	6 Pack / Carton	413 710
10 x 20 cm	214 ml	10 pcs / Pack	6 Pack / Carton	413 711
15 x 20 cm	321 ml	10 pcs / Pack	6 Pack / Carton	413 712
20 x 25 cm	535 ml	10 pcs / Pack	6 Pack / Carton	413 713
20 x 40 cm	856 ml	10 pcs / Pack	5 Pack / Carton	413 715

Zetuvit® Plus is especially suitable for the treatment of superficial, severely exuding acute or chronic wounds such as decubitus, leg ulcers, and exulcerating tumours.
