MICRO-TOUCH® Blue Nitrile

Essential Series

Nitrile, powder free examination glove with exceptional fit and reliable protection

This non-sterile glove features an advanced stretch formulation providing you with the ultimate comfort and fit. With its high strength and excellent protection features, this glove is ideal for nearly all clinical settings.

KEY FEATURES AND BENEFITS:
- Advanced formulation for exceptional comfort and fit providing better tactile sensitivity
- An AQL better than industry standards delivers consistent, high quality production
- 200-count packaging reduces waste
- Tested for use with over 55 chemicals and approved for use with chemotherapy drugs*

* See product packaging or contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations. Users should test the suitability of this product against specific chemicals and the environment where used. Data for specific chemicals is available upon request.

WARNING: No glove completely protects against all chemicals. Users should test the suitability of this product against the specific chemicals and environment where used.

Recommended For

- Tested for use with chemotherapy drugs
- Protection from Type I latex allergy in HCW's or patients
- Standard, moderate risk examination procedures
- Environmentally friendly facilities

FEATURED TECHNOLOGIES

MICRO-TOUCH® Everyday, Everywhere Protection

MICRO-TOUCH® premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
