It's been a wonderful and warm start to 2023. The days are getting shorter and colder, and this means flu season is just around the corner.

The last few years have seen limited influenza outbreaks but experts are predicting this year's flu season could be earlier and more severe.

In the northern hemisphere flu season started 2 months earlier than normal so it is possible we will see influenza cases rising sharply over the next 2 months in Australia. As the media increases their focus on flu season, ensure you've got stock of influenza vaccines as the community demand rises.

This also means the end of the financial year is fast approaching, so we're running a huge equipment and furniture sale to help you make the most out of EOFY! We have got loads of products on sale that can update your clinic's equipment or completely fit out a new facility.

As always, our dedicated group of Personal Account Managers are keen to help in any way they can. This month we are welcoming two new experienced Personal Account Managers to the team. We would like to welcome Jodie Abrahams will be looking after Gold Coast, Northern Rivers NSW and Toowoomba areas, and Chris, taking care of the Sunshine Coast, Wide Bay, and Capricorn regions.

With superior customer service, **SSS AUSTRALIA DOES**
More For You

Mölnlycke®
The Perfect Family for Wound Healing

Always follow the Directions for Use

Did you know....?

- Exudate is part of normal wound healing, but it can cause problems when in the wrong amount, in the wrong place or when of the wrong composition¹
- Excessive exudate is known to disturb healing and may cause cell and tissue damage²
- If a patient has Covid-19, the virus may be present in the exudate, and so pooling of exudate may increase the risk of exposure to Covid-19 for healthcare professionals^{3,4}
- Pooling of wound exudate may also create unpleasant odours, the intensity of which is typically associated with the bacterial load in the wound⁵

Click here to find out more about the Mölnlycke Customised Learning Centre

HEINE VisionPRO Video Laryngoscope Set

For fast and reliable intubation, nothing is more important than the best view of the glottis. The new HEINE visionPRO video laryngoscope provides just that with the new and worldwide unique HEINE allBRIGHT display – even in very bright ambient light.

At the same time, the new HEINE visionPRO is extremely robust, reliable and durable. To be as environmentally friendly as possible, a rechargeable lithium battery is used and is the first to use a blade made from upcycled material.

- Bright and sharp image
- Robust and smart product design
- Ecological and economical

1067971	9.5cm x 9.5cm	B25	\$73⁹⁸ ex GST

Inadine Dressing is indicated to manage bacterial contamination and prevent infection in ulcerative wounds.

Reliable

Inadine Dressing is a reliable, efficient and non-adherent dressing designed to manage bacterial contamination and prevent infection in both chronic and acute wounds.

Efficient

The Povidone Iodine molecule has a broad spectrum antimicrobial action^{1,2} and has been proven to be effective against MRSA³⁻⁵.

Non-adherent

Inadine Dressing minimises adherence to the wound bed, therefore reducing the risk of damage to the granulation tissue at dressing removal², and in clinical practice has been shown to reduce pain for patients^{6,7}.

To learn more about the benefits of Inadine Dressing contact your 3M representative.

Your frontline defence against infection

Science for your skin

You protect your patients, the Bactol® range protects you. Regular hand hygiene has never been more important, but poorly formulated hand sanitisers are wreaking havoc on our hands. This is where Bactol® steps in – with effective cleaning, balanced by emollients leaving skin feeling soft and healthy.

Bactol® Clear

Antibacterial Hand Rub

Colour-free, antibacterial hand rub with emollients. Maintains skin integrity and prevents moisture loss.

AUST R 335834

View Bactol Clear

Bactol® Blue

Antibacterial Hand Rub

pH balanced antibacterial hand rub, containing a macadamia oil emollient to maintain skin integrity and prevent moisture loss.

AUST R 155397

View Bactol Blue

Bactol® 2% CHG

Antibacterial Hand & Body Wash

Chlorhexidine Gluconate, pleasant fragrance and superior lathering make this the ideal procedural hand wash and patient body wash.

AUST R 345050

View Bactol 2% CHG

Bactol® Moisturiser

Hand Moisturiser

Offers extra protection, especially where hand washing occurs regularly. Absorbs quickly and is suitable for use under surgical gloves.

View Bactol Moisturiser

There's a Bactol® product for every application – the result of decades of research and development, including extensive feedback from healthcare workers and facilities. Every Bactol® product is pH balanced and 100% Australian made.

Insist on Whiteley when ordering your hand hygiene products

Cutan Alcohol Foam Hand Sanitiser

Highly effective alcohol foam antiseptic hand rub. Contains conditioner to help prevent skin dryness and leave the skin feeling soft and smooth for an excellent after feel.

- Use without water for rapid and convenient hand disinfection
- Perfume free, dye free formulation with added moisturisers
- Suitable for waterless surgical scrub disinfection
- Unique worldwide patented foam technology
