## National Palliative Care Awareness Week, April Falls, Skin Care Product Guide, EOFY Deals, and more!

Welcome to the second edition of Spotlight for 2026.

As we continue to support the evolving needs of aged care and healthcare providers, this edition brings together key awareness initiatives, practical solutions, and valuable resources for your team.

From May 10th to 16th, we recognise National Palliative Care Awareness Week. To support this important initiative, we've included a dedicated spread showcasing essential palliative care products designed to deliver comfort, dignity, and quality care.

April marks Falls Awareness Month, highlighting the importance of prevention and safety within care environments. SSS Australia offers a wide range of solutions to help monitor, prevent, and mitigate falls, including our new under-mattress pad alarm, a non-intrusive and innovative addition to your resident safety toolkit.

Selecting the right skin care products for residents can be complex, given the wide range of options available. To make this easier, we've created a practical product guide featured in this edition's centrefold pullout, providing an overview of the many quality ranges we supply from globally trusted brands.

You'll also find a variety of EOFY deals in our accompanying brochure. With many offers available only while stocks last, now is a great time to secure value across your essential supplies.

Finally, as the Easter holidays approach, we wish you and your team a safe, happy, and well-deserved break.

Thank you for your continued partnership, and we hope you enjoy this edition of Spotlight.

## Oxygen Concentration

Oxygen concentrators are medical devices that draw in ambient air, filter out nitrogen, and deliver 90–95% pure oxygen to individuals with conditions that impair breathing, such as COPD, asthma, pneumonia, heart failure, and sleep apnea. They provide a continuous, reliable oxygen supply without the need for refilling tanks, making them cost-effective, convenient for home or portable use, and supportive of better mobility and quality of life. These devices are commonly prescribed for long-term oxygen therapy and are used in both clinical and home settings to help maintain healthy oxygen levels and support daily activities.

## Oxygen Concentrators

### NEW IN - KINGON OXYGEN CONCENTRATORS!

Kingon is a medical device brand specializing in ultra-light, highly portable oxygen concentrators, recognized for producing the world's smallest and lightest 1-litre pulse-dose units designed to improve patient mobility and quality of life. Their flagship P2 models are known for strong battery life, high oxygen concentration, and user-friendly design, making them a market leader in portable oxygen therapy solutions.

#### Kingon Portable Oxygen Concentrator P2-E

Experience ultimate freedom, mobility, and peace of mind with the Kingon P2E Portable Oxygen Concentrator, the latest 2026 upgrade to the world's most compact and lightweight POC.

1554719 Each **\$2,799<sup>00\*</sup>**

#### Kingon Portable Oxygen Concentrator P2-E7

The Kingon P2-E7 is an ultra-compact and lightweight portable oxygen concentrator designed for reliable oxygen therapy on the move.

1554743 Each **\$4,199<sup>00\*</sup>**

#### Kingon Transportable Oxygen Concentrator P2-TOC

The Kingon P2-TOC is Australia's newest generation 3-litre portable oxygen concentrator, delivering both continuous flow and pulse-dose oxygen in a compact, transportable design.

1554751 Each **\$3,749<sup>00\*</sup>**

#### Kingon Stationary Oxygen Concentrator P2-05E

The Kingon P2-05E or P2-SOC is a high-performance 5 litre stationary oxygen concentrator designed for continuous oxygen therapy at home or in clinical settings.

1554778 Each **\$1,869<sup>00\*</sup>**

## National Palliative Care Week, 10-16 May 2026 | Getting to the heart of it: Big Questions. Real Answers.

Every day in Australia more than 450 people of all ages die from life limiting illnesses, many of whom would benefit from palliative care that supports their comfort and dignity. National Palliative Care Week, supported by the Australian Government Department of Health and Aged Care, aims to increase understanding and acceptance of palliative and end of life care. The 2026 campaign theme, **Getting to the heart of it: Big Questions. Real Answers.**, encourages open conversations to make palliative care easier to understand. It highlights living well in a personal way, the importance of meaningful conversations, and the value of care that feels safe and respectful for individuals and families.

## Wound Care Education Workshops 2026

### Learning outcomes:

- Identify the difference between Infection and Inflammation
- Recognise dressing options for specific wound characteristics
- Practice dressing application techniques
- Identify strategies to reduce the risk of common wound types
- Find out what's new in wound care
- Engage in interactive discussion and problem-solving

Rapid Tests are quick, easy-to-use diagnostic tools, often an antigen test, designed to detect specific pathogens (like viruses) in minutes rather than days. These tests provide fast, preliminary results by identifying viral proteins.

**NEW IN!**

**\$6<sup>00</sup> / Test**

### TouchBio UTI Rapid Test

TouchBio Urinary Tract Infection (UTI) Test detects UTIs and provides accurate results in minutes.

- Comes with holder for cleanliness and convenience
- Easy to use
- Test time: results in 2 mins
- Specimen type: strip
- Self-test without the need for special training or equipment; easy to interpret
- Shelf-life: 24 months

1555359 P2 **\$12<sup>00</sup>**

**Price Breaks Available!**

**\$2<sup>00</sup> / Test**

### Clungene Covid-19 Antigen Rapid Test

The COVID-19 Antigen Rapid Test is a lateral flow immunoassay intended for the qualitative detection SARS-CoV-2 nucleocapsid antigens in nasopharyngeal swab, nasal swab or oropharyngeal swab from individuals who are suspected of COVID-19 by their healthcare provider.

- Easy handling, no instrument required.
- Support the detection of 3 different samples.
- Instant results at 15 minutes.
- Results are clearly visible and reliable.
- High sensitivity and specificity.
- Excellent performance compared to molecular methods.

1523953 B5 **\$10<sup>00</sup>**

### RSV Flu A/B & Covid-19 Rapid Antigen Rest

- Very High Sensitivity (> 98%) : Accurate and reliable results.
- Comprehensive Testing: Detect 4 viruses in a single test (RSV, Flu A/B, and COVID-19).
- Rapid Results: Obtain your results in 15 minutes, empowering you to make informed decisions about your health.
- Easy-to-Use Self-Testing: The kit comes with clear instructions and all necessary components for self-testing, making it simple and convenient for users.
- Compact and Portable: The kit is designed for easy storage and transport, making it ideal for use at home, work, or while traveling.

1553305 Each **\$5<sup>65</sup>**

Ear wax impaction is very common in older adults, and delays have real consequences.

In-facility irrigation means:

- No waiting days or weeks for a GP appointment
- Immediate relief of hearing loss, discomfort, dizziness, or behavioural changes
- Faster resolution of issues that can otherwise escalate into falls, agitation, or confusion

For residents with dementia, even short delays can significantly worsen behaviours.

## Propulse

### PROPULSE PACKAGE INCLUDES

- ProPulse Ear Irrigator
- Footswitch
- 10 x QrX Tips
- 5 x Mushroom Valves
- AC Power Adapter
- Reservoir Tank with Lid
- User Manual
- 12 Month Manufacturer Warranty

### Propulse Ear Irrigator

The ProPulse G5 Ear Irrigator has been designed with both the patient and clinician in mind. It offers a cost-effective, easy-to-use and easy-to-clean device for effective ear wax removal. The new handle design also offers enhanced comfort and increased ease removing the QrX tip.

## April is Falls Awareness Month

Falls Awareness Month raises awareness about the high risk and serious consequences of falls among older Australians, with one in four people over 65 experiencing a fall each year. It emphasises that most falls are preventable through targeted strategies such as strength and balance exercises, risk assessments, and personalised prevention plans.

REFERENCE  
<https://www.agedcarequality.gov.au/news-publications/clinical-alerts-and-advice/falls-awareness-month>

### Nurse Call Alarm Sensor Beam
