# Welcome to Edition 4!

**Celebrating 50 Years, Infection Prevention Week, Shocktober, Nutrition Product Guide, and more!**

Welcome to the fourth and final edition of Spotlight for 2026. You may notice a bit of a theme throughout this edition - it's our **50th birthday!** On top of that there are plenty of reasons to be excited for the last few months of the year, a part from the fact it's getting warmer.

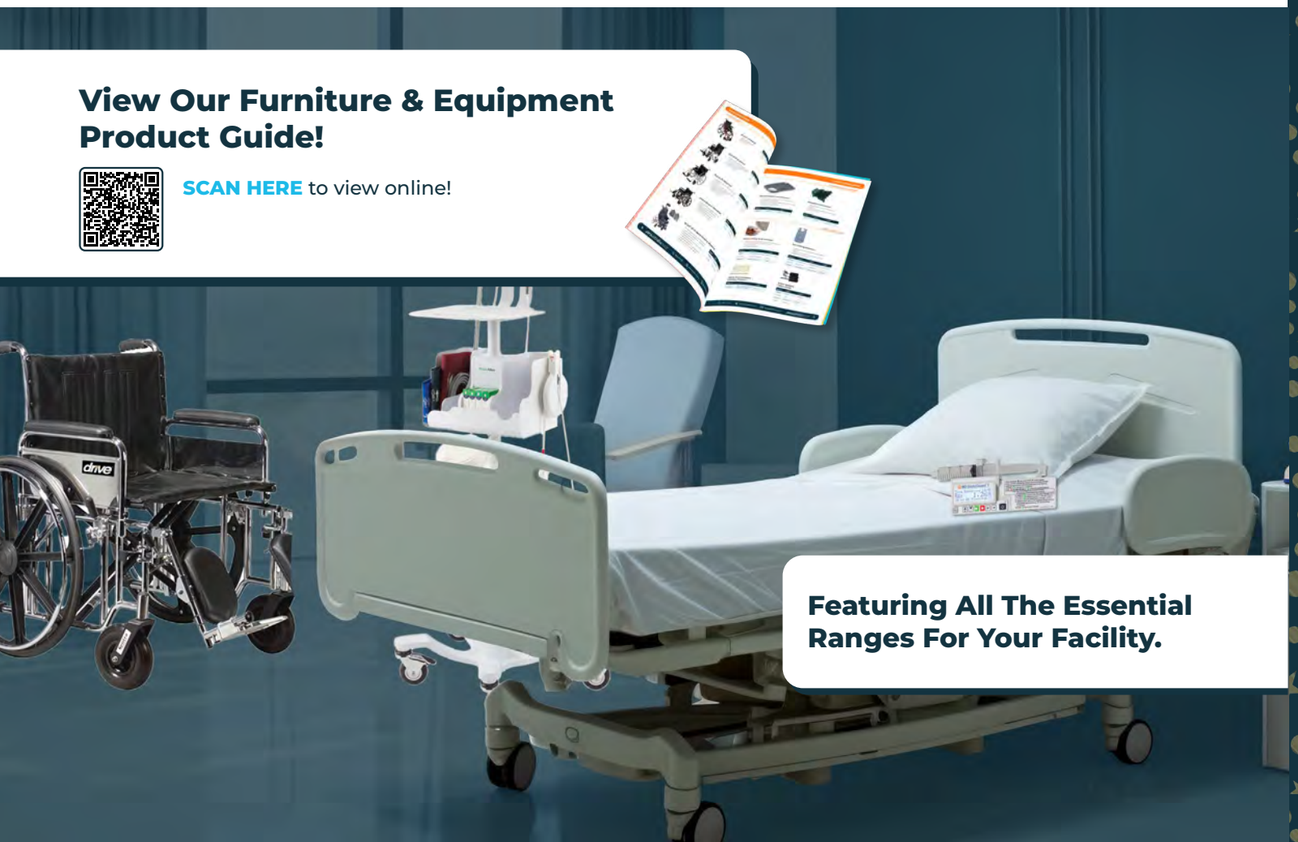

**International Infection Prevention Week** is on in October. From the 18th - 24th, 2026's IIPW focuses on Past, Present, and being Prepared for the future. Recognising and reflecting on where we were and how far we've come can help us maintain and strengthen infection prevention and control practices, as well as improve ongoing education for healthcare workers. Find the best IPC products for your facility on pages 4 and 5.

Speaking of being prepared for the future -- **October is Shocktober!** Sudden cardiac arrest affects over 30,000 Australians each year and having an AED nearby increases the chance of survival to over 70%. SSS Australia has industry leading AED's at incredible discounts of up to 36% during this quarter! Whether you're rolling out or upgrading, we've got the savings you need.

Over the last **50 years** of supporting healthcare businesses like you, we've remained committed to making accessible the vital medical supplies necessary for providing the best quality of care. We believe this tenet extends beyond streamlining logistics and ordering processes, and starts at product selection. This is why we have produced a new resource aimed at simplifying product understanding -- this time for our diverse ranges of nutrition products! This centrefold features the nutrition providers you know and love, and groups them into their indications so you know you're choosing the right kind of product for your resident.

Our **2027 Wall Planner** is also available for order! Scan the QR code on the back of the edition and fill out your details so we can send you your FREE wall planner!

As the year draws to a close we lastly want to thank you for another great year. From our team to yours, happy holidays and have a happy new year. We look forward to doing More For You in 2027, and for the next 50 years.

# 50 YEARS

**Celebrating 50 Years of SSS Australia Supporting Healthcare Professionals and Organisations**

From modest beginnings in a Brisbane suburban garage in 1976, once known as South Side Surgical.

Now SSS Australia, we have grown into a team of more than 70 people operating from a purpose-designed head office and warehouse - united by a commitment to supplying healthcare professionals and organisations across Australia with quality medical products and dependable support.

~ 550 team members over five decades ~

Growth, innovation and enduring relationships have shaped our journey. Over five decades, 550 staff have contributed, while our supplier network has grown ten-fold from 25 partners to more than 250. We have supported healthcare through changing products, prices and technology, continually adopting information technology to improve efficiency.

Many customers have been with us since our earliest days. As our infrastructure, people, products, pricing and engagement evolve, our commitment to doing ***More For You*** through personable, dependable service and reliable supply remains unchanged.

~ from 75 customers to more than 7,500 ~
~ from 500 orders to more than 50,000 annually ~

**To our Customers:** thank you for choosing SSS Australia and for allowing us to be part of your work. Your loyalty, feedback and long-standing relationships mean more than we can express. You have shaped who we are, and we never take your confidence in us for granted.

**To Members of the SSS Australia team:** past and present, you have all contributed to this milestone. Thank you for the care you brought to your work, the knowledge shared, the challenges overcome, and the extra effort made for our customers and one another.

**To our Managers & Leaders:** thank you for your commitment to guiding our people and processes to deliver customer satisfaction and encouraging innovation; ensuring our teams continue to develop and deliver valuable customer outcomes.

**To our Suppliers and Industry partners:** as essential contributors to customer outcomes, thank you for the expertise, innovation, and dependable support that help us maintain supply continuity and deliver quality outcomes. We will continue collaborating through mutual dialogue, shared planning and new initiatives that strengthen customer outcomes and respond to the changing needs of Australian healthcare professionals.

Over the past five decades, healthcare has changed profoundly. Clinical practices, regulation, technology and supply chains have all evolved. Through every change, our customers have guided us - sharing their needs, challenging us to improve and trusting us to provide the products and support that help them care for others.

This inspires our continued investment in people, systems, facilities, product ranges and quality practices. Most importantly, these investments give our teams the tools to respond quickly, achieve prompt outcomes and make life easier for customers. Every improvement is driven by our simple goal: to serve you better.

Thank you to our customers and team members for making the SSS Australia story possible. As we celebrate 50 years, we look to the future with gratitude and confidence, positioned to deliver quality supply outcomes for healthcare communities across Australia.

Colin Smith
*CEO/General Manager*

australia HEALTHCARE SUPPLIES

International Infection Prevention Week (IIPW) is a global initiative dedicated to raising awareness about the critical importance of infection prevention. Each year, IIPW celebrates the impact of infection preventionists and reinforces the essential practices that protect patients, healthcare workers, and the public.

A proactive approach to IPC, highlights three simple steps:Identify the risk, Protect patients and the workforce, and Control the spread of infection.

# Gloves

### Nitrile Powder Free Glove Non Sterile

Nitrile gloves are the affordable alternative to vinyl gloves. This nitrile glove conforms to the wearer's hand and supports a greater level of barrier protection than vinyl gloves, reducing the risk of contamination in the workplace.

# CONNEX VITAL SIGNS SPOT MONITOR

## Designed to deliver even greater accuracy, ease of use, and clinical confidence in everyday patient monitoring.

The Baxter Welch Allyn Connex Spot Monitor continues to be a reliable, cost-effective solution ideal for aged care facilities. It's trusted by clinicians for its performance and now delivers even more.

### Features

- **Enhanced Vital Sign Accuracy:** Improved sensors for more precise readings of blood pressure, $SpO_2$, pulse, and temperature.
- **Faster Measurements:** Reduced time to result, improving patient throughput and reducing clinician burden.
- **Compact & User-Friendly Design:** Lightweight, portable unit with intuitive touchscreen interface for easy bedside use.

SUDDEN CARDIAC ARREST AWARENESS MONTH 01-31 OCT SHOCKTOBER

Every October, Australia unites for **Sudden Cardiac Arrest Awareness Month** to tackle a silent medical emergency where out-of-hospital survival rates hover around 10 per cent. Communities and emergency services rally to demystify lifesaving tools, aiming to transform bystanders into immediate lifesavers.

Anchored by initiatives like “Shocktober” and World Restart a Heart Day on October 16, the campaign focuses on educating the public to call 000, perform CPR, and use Automated External Defibrillators (AEDs). These efforts aim to boost public confidence and increase survival rates, giving more Australians a second chance at life.

While stocks last | Limited time only | 1 Oct to 31 Dec 2026

- CPR coaching that adjusts to noise
- Adult and child modes, same pads
- Automatic self tests
- Escalating energy up to 360 J

Semi-automatic and fully automatic models.

**Shop Now!**

### ALWAYS FOLLOW THE DIRECTIONS FOR USE

**In case of an Emergency:**

- Call 000
- Use AED and follow the prompts
- Begin CPR until medical treatment arrives
- An AED will only deliver a shock to a person with a shockable rhythm

Offer applies to eligible LIFEPAK CR2 models only. Offer ends 31 December 2026 or while stocks last, whichever comes first. The LIFEPAK CR2 defibrillator is intended for use by people trained in CPR. Always refer to the operating instructions for complete directions for use, indications, contraindications, warnings and cautions. Features vary by model. Specifications are subject to change without notice. LIFEPAK, LIFELINKcentral, cprINSIGHT and ClearVoice are trademarks of their respective owners.

# ORAL SYRINGES

High quality Oral Syringes (clear barrel with orange plunger) varying from 1mL to 60mL

- **Sterile and individually packed**
  Each syringe is supplied in a single blister pack to maintain sterility and reduce contamination risk.
- **Clear barrel for accurate dosing.**
  Transparent barrel ensures precise measurement and easy visibility of liquid medication.
- **Orange plunger for safety.**
  High-visibility orange plunger helps prevent dosing errors and enhances identification.
- **Low Dose Tip (1mL)**
  Specialised tip for accurate administration of small volumes - ideal for neonatal and paediatric use.
- **Latex-free rubber piston (3mL–60mL).**
  Reduces the risk of allergic reactions and ensures smooth, consistent plunger movement.
- **No Cap Design**
  Simplifies use and reduces choking hazards, particularly in paediatric care.
- **Comprehensive Size Range**
  Available in 1mL, 3mL, 5mL, 10mL, 20mL, 30mL, and 60mL to suit a variety of dosing needs.
- **Single-Use and Durable**
  Designed for one-time use with reliable performance in clinical, aged care, and home settings.

# Skin Tear Decision Algorithm[1]

convatec — forever caring —

**A skin tear -**
- is a traumatic wound caused by mechanical forces, including removal of adhesives and patient handling, the depth of which may vary.
- does not extend through the subcutaneous layer.

**Skin Tears**
↓
**Assess**
↓
**Cleanse**
↓
**Approximate wound edges**

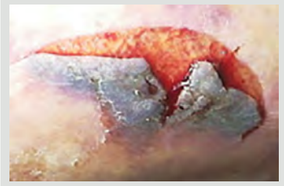

**Control bleeding**
Consider applying Kaltostat® (for up to 24 hours) to promote haemostasis. Remove when bleeding has stopped.[2]

**Classify**
Measure and document

## Goals of treatment

- Treat the cause
- Moist wound healing
- Manage exudate
- Implement prevention protocol
- Avoid trauma
- Avoid infection
- Protect periwound skin
- Pain control

## Treatment Options

| Levels of Exudate | Type 1: No Skin Loss | Type 2: Partial Flap Loss | Type 3: Total Flap Loss |
|---|---|---|---|
| |  Linear or Flap Tear which can be repositioned to cover the wound bed |  Partial Flap loss which cannot be repositioned to cover the wound bed |  Total Flap loss exposing the entire wound bed |

# Mattress Audits

Regularly auditing your mattresses is important for avoiding hidden dangers and serious health risks. Cleaning the cover isn't always enough - even minor abrasions or damage to the mattress can allow urine or faecal matter to penetrate the cover and into the mattress, potentially leading to infection control risks, staining, and foul odours.

**Icon I3 Pressure Mattress**

Deluxe grade, quality Australian Foams are configured to provide immersion, envelopment, comfort, and performance for individuals with a medium risk of pressure injury.

| | | | | |
|---|---|---|---|---|
| 1348485 | Single | 1980 x 880 x 150mm | Each | $746.00* |
