

# Safety Data Sheet

## Askina® Barrier Film – 28ml Spray Bottle

### No Sting Protective Film

#### 1. PRODUCT DESCRIPTION

Askina® Barrier Film is a sterile liquid dressing which forms a transparent film when applied to the skin. The film is colourless, transparent, and possesses good oxygen and moisture permeability. Askina® Barrier Film is alcohol free and therefore leaves no sting or discomfort on the skin.

#### 2. INDICATIONS

Askina® Barrier Film is indicated for use on intact or damaged skin. Askina® Barrier Film acts as a protective barrier

- against irritation from body fluids
- for sensitive and fragile skin
- under adhesive dressings to reduce disruption to newly healing tissue
- for damaged skin
- for skin tears
- to protect peri-wound area
- for small cuts and tears
- at fixation sites for drainage tubes and external catheters

#### 3. CONTRAINDICATIONS / SAFETY INFORMATION

- 3.1 Do not use if skin surrounding ulcer is infected as a result of tuberculosis, syphilis, deep fungal infections, or on third degree burns.
- 3.2 If signs of infection (temperature, oedema, redness) develop or if the skin deteriorates unexpectedly, contact the proper medical authority. Resume use of Askina® Barrier Film when normal conditions are present.
- 3.3 Askina® Barrier Film should not be used on infected skin.
- 3.4 Do not use if pack is damaged or opened. Contents of the spray bottle are sterile until the bottle is opened.

- 3.5 Askina® Barrier Film is flammable when in liquid form. Use in a well ventilated area, away from flames and sources of ignition. Keep out of reach of children.
- 3.6 Use of other barrier products, creams, ointments or lotions may reduce the effectiveness of Askina® Barrier Film.

**4. INFORMATION FOR USE**

Askina® Barrier Film is very simple to apply, and requires no special skills or equipment. Re-application time will be dependent on the frequency of cleaning and with secondary dressing change. On frequently cleaned skin, daily reapplication may be required, but this may be reduced to every 2 to 3 days for less frequent cleaning.

**5. STORAGE / STERILISATION / SYMBOLS ON LABELLING**

Store in a cool and dry place  away from direct sunlight , between 5°C and 25°C .

= Flammable

= Recycle
